Sustainable Maryland Wednesday Webinars

Marketing & Outreach for Green Teams and Local Advocates

Mike Hunninghake

Program Manager, Sustainable Maryland

October 14, 2015

Sustainable Maryland

- Free & Voluntary program for communities that want to go green and save green!
- We help communities
 - Choose a direction for their sustainability efforts
 - Improve access to resources
 - Measure their progress
 - Share success with other communities

Actions for Sustainable Communities:

To become Sustainable Maryland Certified, municipalities must complete and document actions from the list below. To achieve certification, municipalities will need to complete actions worth a total of 150 points, including two Mandatory Actions (M) and two of six Priority Actions (M) and two of six Priority Actions.

ACTION ITE	M	POINTS
COMMUNIT	ON	
Green Team		
Participate	C Green Team Training	5
Create a C	bam'	10 M

Marketing and Outreach

- Recruiting Volunteers
- Contacts Management
- Website
- Social Media
- Photos
- Events
- Press Releases
- Bulletin Boards
- Email Signatures

RECRUITING VOLUNTEERS

- The Beauty of Green Teams
- Can't do it on your own
- Create a Community
- Target their interests
- You have to ask

CONTACTS MANAGEMENT

CONTACTS MANAGEMENT

- Basic Contact Information Names, email addresses, phone
- Newsletters
 Monthly, Quarterly, Promotional Events
- Invitations
 Helps keep track of events
- Surveys
 Learn from your community
- Annual Report
 Annual summary updates of programs and initiatives

CONTACTS MANAGEMENT

- Various free or inexpensive platforms Constant Contact, MailChimp, iContact
- Prices range often based on number of contacts

(CC) 0-500=\$126/year, 500-2,500=\$294/year

The Sustainable Maryland Certified Program requires that participating municipalities establish a local Green Team as the first step in establishing a community sustainability program. Green Teams leverage the skills, expertise and life experiences of team members to develop policies and plans, implement programs and assist with educational opportunities that support the creation of a sustainable community.

Mission

A. The Bowie Green Team will establish a course for creating a sustainable path for the City, educate the City and community members further about sustainable activities and develop initiatives supporting sustainable local government practices.

B. The Bowie Green Team will provide leadership which will seek community-based sustainable solutions to strengthen our community.

C. The Bowie Green Team will strive to develop policies and plans, implement programs and assist with educational opportunities that support the creation of a sustainable community.

Organization

Per Council Resolution R-47-12, the Bowie Green Team shall consist of twenty nine (29) members, twelve (12) of which shall be voting members and shall be referred to as the Green Team Executive Committee, while the remaining membership of the Green Team shall be nonvoting members. The Bowie Green Team meets on the third Mondays of the month, except during the month of August.

To stay up to date on the Green Team's activities, subscribe to the quarterly Green Bowie e-newsletter.

Sustainable Poolesville

The Town of Poolesville recognizes its responsibility to minimize negative impacts on human health and the environment while supporting a diverse, equitable, and vibrant community and economy.

Policies

Programs

Projects

A policy is a principle or rule that guides government decision-making in order to achieve a desired outcome. Typically, official policies may be codified by the Town of Poolesville through amendment to the Town charter, code, or master, or directed by the Commissioners. Policy-related activities may also take the form of public-private partnerships.

Notable policies and policy developments related to sustainability:

• Sustainable Living: Gaithersburg Brochure

Throughout all of our activities, an underlying principle is the realization that every aspect of our environment and environmental health is interrelated. Air pollution affects water quality; impervious surfaces impact groundwater recharge and stream flows; solid waste management affects air and water quality; and noise pollution impacts quality of life. Environmental quality and our ecosystem impacts extend beyond the City of Gaithersburg's boundaries. Solutions to many environmental problems, such as ground level ozone, must consequently address issues on a broader scale that includes all of Montgomery County and the entire metropolitan Washington area. Therefore, the environmental protections attained by the City of Gaithersburg benefit not just the residents of Gaithersburg but all residents in the immediate area.

We are Sustainable Maryland Certified!

We received Sustainable Maryland Certification September of 2014. Sustainable Maryland Certification (SMC) is a new initiative of the Environmental Finance Center at the University of Maryland. The initiative was created to enhance livability for all Marylanders by helping municipalities choose a direction for their sustainability efforts, improve access to resources peeded to implement action, measure their progress, and gain recognition for their accomplishments. We hope to achieve 150 through sustainable actions. Learn more about SMC

We are your green

Beautify Beale Cir.

Join us Tuesday, March 31st 8 7:30PM 8 Riverdale Park Town Hall to share your thoughts on how to improve Beals Circle. Learn more
